

2020 MSL WORKSHOP ONLINE

Call for participation: 10th RoboCup MSL International Workshop

The 10th International RoboCup MSL Workshop will be held during 12th and 13th of December 2020. All teams from the Middle Size League are cordially invited to join this workshop! Organized by Tech United Eindhoven and VDL Robot Sports, the workshop will take place online due to the current COVID-19 situation.

To stimulate knowledge transfer we would like all teams to request topics for the team presentations of other teams! What would you like to know?

As per tradition, the workshops will be practically oriented. This year, however, we propose to organize a number of smaller sessions to discuss important topics for the league. For more information about the workshop, such as: more detailed schedule and workshop registration, please visit the Workshop website:

We hope to welcome you online!
